

PRICELIST

Dear Friends,

Firstly, please let me congratulate you both on your engagement! It is no small feat that out of seven billion people, you managed to cross paths with the one person who makes you tingle, makes you smile and that without, life would now be incomplete.

Choosing your photographer should be first and foremost based on emotion. Do their images entice you and captivate you? Can you imagine yourself in one? Selecting the person who captures your special day is a very important decision. I have been photographing weddings for over 20 years and I still find it absolutely exhilarating to not only capture your moments in time, but the emotion, love and feeling behind them too. There is no aspect of photography more challenging or rewarding than capturing the true spirit and feeling of 2 people so madly in love on their wedding day.

I would love for you to get in touch. Lets arrange a time for us to get together, I would love to hear a bit more about your story and we can talk about where you see it going from here!

I look forward to hearing from you,

Kevin McGinn

## ENGAGEMENT / LOVE SHOOTS

Engagement Sessions are a fantastic way to get out and have some fun and capture some amazing images in the process!

It gives me a chance to get to know you both better and see what makes you tick, as well as giving you a chance to see how relaxed, easy and fun a shoot can be with me.

As we aren't restricted to the wedding day schedule, it gives us a chance to explore an area, chat about all things weddings, photography or whatever you like and create some magic in the process.

You will receive all of your images in your own gallery on my website.
